SAI360 Academy

Helping you understand the full potential of your platform.

Introduction to SAI360 Compliance

The course will explore different elements of SAI360 Compliance. It will help you understand what to expect as a System Administrator as we go through a platform overview, security and basic configuration.

This training covers the following topics

- Navigation of the platform
- Platform security
- Configuration of Objects, Forms and Workflow
- Introduction to Reporting

(Total Time: 1hr)
